

# SKIN PROTECT™

NOURISHES, PROTECTS & REJUVENATES THE SKIN

## *How Skin Protect Promotes Youthful, Healthy Skin*

Skin is the largest organ of the body, providing a protective envelope that plays a critical role in maintaining the body's metabolic equilibrium. Many factors can compromise the health of the skin, which in turn affects the health of the whole body. Skin health problems, in particular photo-aging and skin cancer, are steadily increasing due to oxidative damage caused by external factors such as UV radiation, pollution and chemical exposure, and internal factors, including diet, stress and aging.

Skin Protect nourishes the skin, enhances its natural healing responses and defenses, and inhibits skin aging to promote youthful, healthy skin. This state-of-the-art formulation features cosmetic grade phytonutrients, liposomal nutritional compounds, unique fatty acids and essential oils. The efficacy of these unique compounds in treating compromised skin has been validated through clinical experience, traditional use and scientific research. Skin Protect is an all-natural product, free of parabens, pthalates, sodium laurel sulfate and petrolatum. It is cruelty-free and is not tested on animals.

### **Protects Against UV-Induced Oxidative Damage and Inflammation**

Ultraviolet (UV) radiation from the sun is the leading cause of photo-aging and various types of skin damage. Frequent exposure causes extensive damage to lipids, proteins and DNA, and can suppress the immune system within the skin. Skin protects itself from UV damage primarily through its own antioxidants. Studies have shown that antioxidants normally present in human skin virtually disappear with high exposure to UV light. This decline in the body's natural antioxidant systems is a key factor responsible for the development of lines, wrinkles, brown spots and lost elasticity, as well as skin cancer. Skin Protect provides therapeutic levels of unique and highly advanced antioxidants that display a remarkable ability to inhibit cellular damage and aging of the skin, while promoting healing.

### **Nourishes and Moisturizes**

The unsaturated fatty acids in Skin Protect maintain and restore softness, health and vitality to the skin by reinforcing the skin's barrier function, preventing moisture loss through the epidermis and providing structural integrity to the skin after damage caused by external influences.

**SUGGESTED USE:**  
Gently massage into the skin until fully absorbed.

SKIN PROTECT

# SKIN PROTECT™

NOURISHES, PROTECTS & REJUVENATES THE SKIN

## INGREDIENTS

Aqua (water)	<i>Olea europea</i> (olive) oil + <i>Calendula officinalis</i> extract	<i>Hippophae rhamnoides</i> (sea buckthorn) oil
<i>Carthamus tinctorius</i> (safflower) oleosomes	<i>Simmondsia chinensis</i> (jojoba) oil	Alpha Lipoic Acid
<i>Butyrospermum parkii</i> (shea butter)	Olive Squalane	Ubiquinone (Co-enzyme Q10)
Glycerin	Royal Jelly	Centellin™ (Centella asiatica)
Organic <i>Theobroma cacao</i> (cocoa) butter	Retinyl Palmitate (Vitamin A)	<i>Silybum marianum</i> (milk thistle)
Fractionated coconut oil	Titanium Dioxide	Fragrance (natural citrus blend)
Tocopherol (Vitamin E)	<i>Propolis cera</i> (bee resin)	Ursolic Acid (sage extract)
Bentonite	Superoxide Dismutase	Cosmoperine™ (black pepper)
Xanthan Gum	<i>Camelia sinensis</i> (green tea)	<i>Rosemarinus officinalis</i> (rosemary) oleoresin
Gluconolactone and Sodium Benzoate	Tetrahydrocurcuminoids (turmeric)	
Vital Adapt™ Multi-herbal adaptogenic tonic		

## COSMETIC GRADE LIPOSOMAL NUTRIENTS

### Alpha Lipoic Acid

Alpha Lipoic Acid is a broad-spectrum antioxidant that quenches a wide range of free radicals and has UV-protective properties. It is the only antioxidant that can boost intracellular glutathione levels, which are essential for healthy skin.

### Co-Enzyme Q10 (Pro-Natured™ Grow Nutrients)

When levels of CoQ10 in the skin are below optimum, the ability to produce collagen, elastin and other important skin molecules is inhibited. Applied topically, CoQ10 can effectively counteract free radical damage and provide significant protection against UV-induced damage.

### Vitamin A (Re-Natured™ Grow Nutrients)

Vitamin A accelerates healing of minor cuts, burns, and scrapes and reverses some aspects of skin aging. It is also effective in reducing acne.

### Vitamin E (Re-Natured™ Grow Nutrients)

Topical Vitamin E has a protective effect against UV-induced skin damage through antioxidant mechanisms. Its effects include inhibition of lipid peroxidation, free radicals scavenging and skin lubrication.

## KEY PHYTO-COSMOCEUTICALS

### Centellin™

Centellin™ renews the collagen matrix and supportive structures to hydrate the skin. This helps to restore tissue firmness and skin elasticity, while supporting circulation, improving skin appearance, decreasing wrinkles and accelerating wound healing.

### Rosemary Oleoresin Extract

Rosemary used topically is a powerful antioxidant that protects DNA against free radical damage, including UV-induced skin damage. It also improves skin tone and promotes proper circulation.

### Turmeric Extract

The tetrahydrocurcuminoids in turmeric extract have been shown to offer protection from age-related and environmental skin damage. These constituents play a crucial role in preventing cell mutation, scavenging free radicals, regulating cell growth factors and modulating inflammatory pathways.

## SELECT FATTY ACIDS

### Royal Jelly

Royal jelly helps slow aging of the skin by stimulating circulation, delivering additional nutrients and oxygen to the skin and stimulating cellular waste elimination. It is also anti-bacterial and reduces various skin irritations, blemishes and wrinkles.

### Sea Buckthorn Oil

Sea buckthorn oil is rich in concentrated amounts of carotenoids, fat soluble vitamins (A and E), phytosterols and essential fatty acids necessary for the nourishment and regeneration of healthy skin.

### Squalane

Derived from olive oil, the phyto-squalane in Skin Protect helps to maintain the skin's health, moisture and softness. It is known for its ability to protect the skin from UV-induced lipid peroxidation, boost cell regeneration and oxygenation, reduce the appearance of wrinkles and prevent the formation of age spots.

SKIN PROTECT

Our specialty materials are certified by analysis for purity and potency and this product is manufactured under Current Good Manufacturing Processes (CGMP).

Printed on 100% recycled New Leaf Paper using vegetable based inks
